Xavier Rudd: Dark Shades of Blue

Posted on 02 September 2008 by Kate Kachor

Xavier Rudd

Dark Shades of Blue

Universal

Xavier Rudd has stepped it up a notch on his new album.

Never one to shy away from the indigenous ties of Australia's heritage, Rudd pushes the bounds beautifully on this album.

The fusing together of modern day roots and the Dream Time sounds brings a collected sound directly into the mainstream.

Rudd has found another element to his spiritual voice on this album, spreading his message wide and loud on this record.

Four stars
